Friday 11 th July Networking and Goodbyes	Participants meeting the division of their choice Goodbye Lunch and evaluation

Expression of interest – UCL is launching its **second Erasmus Staff Mobility Training week on 7th July 2014**. The theme of the event will be **life learning**. The five-day programme hosted by **Psychology and Language Sciences (PaLS) with the Office for International Affairs at UCL** will include sessions and workshops on professional learning within Higher Education. This event will provide opportunities for networking and sharing best practices with colleagues from partner institutions. Wherever possible, the programme will be tailored to participants' needs, and encourage active participation in each of the sessions.

We are hoping to be able to invite 20 participants. Participants will be selected according to their area of interest and their own **involvement in activities promoting professional development and learning**. We are particularly interested in colleagues who **support, promote and develop Life Long Learning**. We are also interested in colleagues who have been involved and/or obtained **funding for projects aimed at enhancing the professional development** of themselves/their team/colleagues within their Institution and University. We will be looking at sharing best practice in areas of Continuing Professional Development and Learning (particularly in Language/Communication and Leadership), Summer school activities, Life Learning and Distant/Digital Learning, Conferences and Networking (aimed at Professional Services in Higher Education) and any other innovative ways to learn from each other through **sharing knowledge and experiences**.

Further information and application details will be available soon at this website in due time. If you want to show your interest or receive have further information, please contact Cristina Gardini, c.gardini@ucl.ac.uk. Thank you.
