

## ***International Staff Week for laboratory staff – Details***

The University of Sassari is pleased to invite you to attend the International Week for Laboratory Staff, to be held in Sassari, Italy, from 3<sup>rd</sup> to 7<sup>th</sup> June 2019. The week is aimed at lecturers, researchers and technicians that work and teach in the areas of biology, medicine, pharmacy, chemistry and veterinary medicine.

The programme includes seminars on a wide variety of laboratory techniques that may be arranged based on the participants' requests. Practical training sessions will be held at the teaching laboratory of the Department of Veterinary Medicine.

The International Staff Week will provide participants with the unique opportunity to

- Develop personal and professional skills and share teaching methodologies relevant for science students;
- Network with colleagues from international institutions to foster new scientific and professional collaborations within the Erasmus program.

Sassari is a town located in Sardinia, a beautiful island with an impressive cultural and environmental patrimony. The nearest airport is in Alghero, only 30km away.

The staff training week is open to all staff (lecturers, researchers and technicians) of Institutions who work in the areas of Biology, Medicine, Pharmacy and Veterinary Medicine. The maximum number of participants is 20. Registration will close the 10 of March 2019.

### **Registration and Scientific programme:**

Dr Baralla Elena, Dr Pasciu Valeria and Pasqualetto Barbara E-mail: [intstaffweek@uniss.it](mailto:intstaffweek@uniss.it)
