

PROGRAM OF ERASMUS+ WEEK AT TU WIEN BIBLIOTHEK

TU Wien Bibliothek offers a staff training week for library professionals. Presentations on services for students and academic staff and innovations at our library will be varied with discussions with the group of participants. As a space for mutual exchange and learning, there will also be possibilities for participants to share, present and discuss their own experiences and the services offered by their library and the challenges and solutions met in relation to these. Several excursions will provide the opportunity to get an overview of library cooperation in Austria and a social program with enough free time for participants will allow everyone to enjoy the city of Vienna.
