

SEMINAR FOR THE DEPARTMENTS OF ARCHITECTURE PARTICIPATING IN THE ERASMUS EXCHANGE PROGRAM

LUBLIN 22-26/07/2019

Lublin

Situated on Europe's major routes that connected the West with the countries of the North and South-East, in the mid-14th century Lublin became a hub of brisk international trade. At the same time, during the reign of King Sigismund II Augustus, Lublin was an ideological capital of the Polish Republic - it was here that a real union between the Kingdom of Poland and Lithuania was formed. At the turn of the 14th century, after the establishment of the Polish-Lithuanian state, Lublin's location changed. Once a frontier town, Lublin lay now in the centre of the state, halfway between Kraków, the capital of the Kingdom of Poland, and Vilnius, the capital of the Grand Duchy of Lithuania. Later, in the 19th and 20th centuries, the city on the Bystrzyca river was also halfway from one capital to another, but this time between Warsaw (first the capital of the Duchy of Warsaw, then of the Kingdom of Poland and, finally, of the whole country when Poland had regained her sovereignty, and Lviv (first the capital of Galicia, and then of western Ukraine). This geographical and political location of Lublin had a substantial influence on the city's role and significance in Poland's history. This influence is visible also today.

Eastern Innovative Centre of Architecture

Eastern Innovative Centre of Architecture of LUT was developed in the framework of a project co-financed by the European Regional Development Fund in the framework of 2007-2013 Operational Programme Development of Eastern Poland. The total budget of the project amounted to approx. 35 million PLN. The objective of the project was to develop modern, state-of-the-art base enabling education of students and research in the field of architecture and urban planning. The investment was associated with expanding the present facilities of the Faculty of Civil Engineering and Architecture at 40 Nadbystrzycka St. A new 6-story wing (totaling 7200 m²) was added. The wing houses 22 classrooms and laboratories of innovative IT applied in architecture, urban and spatial planning. Upon the completion of construction works in 2012, public procurement procedures were commenced in order to purchase necessary equipment. In total, approx. 200 state-of-the-art pieces of research equipment and laboratory apparatus, including a 3D laser scanner, ground-penetrating radar, total station, were purchased.

SEMINAR FOR THE DEPARTMENTS OF ARCHITECTURE PARTICIPATING IN THE ERASMUS EXCHANGE PROGRAM

LUBLIN 22-26|07|2019

22nd

July 2019

- Arrival of the Seminar Participants
- Registration and accommodation
- Dinner

23rd1st day
of the Seminar

July 2019

- Presentation of research and teaching capacities of the Department of Civil Engineering and Architecture at the Lublin University of Technology
- Lectures of the arriving academic institutions, Part I
- Lunch break
- Presentation of the SURE learning program
- Dinner

24th2nd day
of the Seminar

July 2019

- Sightseeing tour around the Old City complex of Lublin
- Lectures of the arriving academic institutions, Part II
- Lunch break
- Sightseeing tour of the selected places in Lublin*
- Dinner

25th3rd day
of the Seminar

July 2019

- Study trip to Zamość – the Town inscribed in the UNESCO World Heritage List
- Lunch break
- Completion of the Seminar
- 'Magicians' Carnival'
- Dinner

26th

July 2019

- Departure of the Seminar Participants

1. Organizer: Department of Civil Engineering and Architecture, Lublin University of Technology.
2. The aim of the Seminar is to exchange information on research and teaching practices as well as the possibility of cooperation between European academic institutions specialising in Architecture research and studies.
3. The Seminar is addressed to researchers from European departments of Architecture, partaking in the Erasmus Exchange Program.
4. Due to limited number of places the Organizer reserves the right to close the registration process in case of the lack of places.
5. The Organizer introduces the following cultural program:
 - sightseeing tour around the Old City complex of Lublin,
 - trips to selected places*,
 - Sightseeing tour around Zamość – the place inscribed in the UNESCO World Heritage List,
 - Taking part in a world-unique event, 'Magicians' Carnival'
6. The Organizer does not cover the costs of arrival and departure from the venue of the Seminar.
7. The Organizer covers the expenses concerning: Accommodation, Meals, Transport related to the organised cultural program of the Seminar.
