This edition of the International Staff Week we would like to devote to one particular topic which is the contribution of partner countries in the ERASMUS+ programme. We would like to discuss with our colleagues how to successfully establish and foster partnerships with countries beyond the EU within selected mobility programmes. Mostly we would like to deliberate on the idea of initiating the consortium. This year among the participants we will be hosting guests from such countries as China, Georgia, Montenegro and Ukraine

What is more, each participant will have the possibility to share views on topics of their own choice related to their professional orientation while visiting a counterpart faculty/department/office.

Apart from the sessions we guarantee an introduction to Polish language and culture, and a guided tour around the City of Grifons.
